**Industry leading technology, heart pounding curves**

## **Form Meets Function: Introducing Zuidberg's Next Gen Hitch and PTO**

The Zuidberg Group prides itself on, among other core areas, leading the market from a technological standpoint. Zuidberg's "Next Generation" Front Hitch and Front PTO is a fine example of just that. Zuidberg North America will be rolling this new design out during late 2017 and in 2018 on our best selling models. In addition to all of the things that make a Zuidberg Front Hitch and PTO tops in the market (award winning hydro-electric clutch, 270 employees, we own the production facility which allows us to use the highest grade steels, and control costs throughout the entire process), these improvements to our design mark our dedication to remaining the market leader for Front Hitch and Front PTO products, well into the future.

Some of the product improvements include:

- A modern, integrated design that is aesthetically pleasing
- Pushbar comes standard (protects integrity of tractor)
- Features a Cat 3 Clutch, a 44% increase in power
- Integrated space for 2 sets of hydraulic remotes
- Stronger Liffframe
- Improved ground clearance
- Increased Lift Capacity
- Conveniently located service points
